Electronic TORX® screwdrivers

4754

Product no.	**47540007**
GTIN	**4018754355198**
Model	**4754 T7**

Label. Electronic TORX® screwdriver T7 L.50mm

Properties.

- for recessed TORX® screws
- rotating cap with ergonomic recess
- narrow, practical, fast rotating handle
- with laser marking

Benefits.

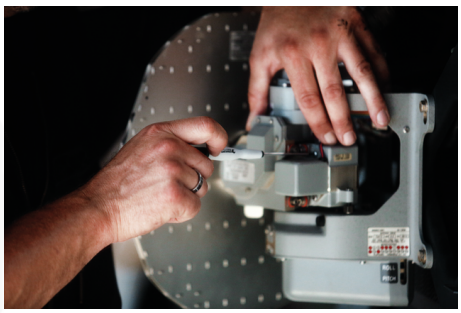
Whether for electronic, IT or precision engineers - our screwdriver for recessed TORX® screws is designed for precise work.

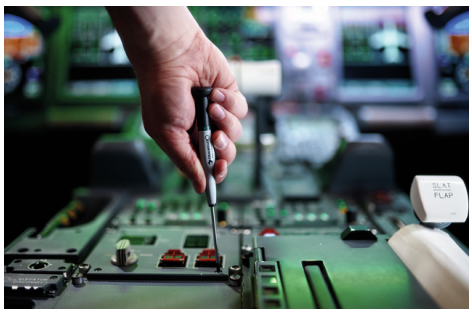
The specially hardened black tip with an optimal fit ensures a long service life.

The blade is made of high-quality Chrome Alloy Steel with a chrome-plated, corrosion-resistant surface for a long service life.

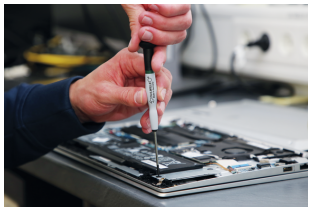
The handy fast rotating handle in combination with a rotary cap allows for faster and more efficient twisting without having to put the screwdriver down.

The non-slip multi-component handle ensures maximum control and supports ergonomic working.

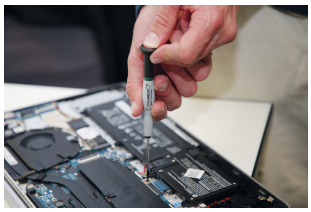




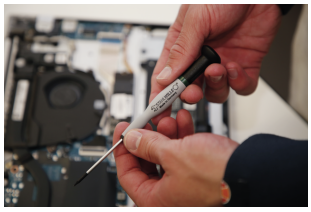
Product highlights.



For precise screwdriving.
Our high-quality electronics screwdriver for recessed TORX® screws is an indispensable tool for millimetre-precise work in electronics and precision mechanics. Whether replacing an SSD in a laptop, maintaining automotive electronics or repairing a delicate clockwork mechanism, this screwdriver offers maximum precision and versatility.



Fast spinning.
By placing your hand on the rotary cap and the fast-rotating handle, you can twirl the screwdriver particularly quickly without having to put it down repeatedly.



Convenient handling.
The multi-component handle promotes ergonomic and comfortable working thanks to a well thought-out combination of hard and soft zones.

Excellent quality.
The Chrome Alloy Steel blade with specially hardened black tip ensures the highest quality and a long service life.
