Manual calibration systems 7706

7706

Product no.	**96521069**
GTIN	**4018754179145**
Model	**7706-9PC**

Label. Manual calibration system

Properties.

- the special power transmission system prevents the force application point from shifting
- the handwheel drives a lever linearly via a spindle, whereby this movement is converted into a rotary movement for the transducer
- 2 ball-bearing bushings ensure a friction-free contact surface and enable the horizontal alignment of the wrench
- the torque wrench remains in position whilst the load is being applied
- minimal transverse forces and reduced friction minimise measurement errors
- protected by national and international patents

Contains:
transducer, square adaptor, USB adaptor, cable, management software for calibration certificates

Technical attributes.

Length mm (L)	1200 mm
Width mm (b)	800 mm
Height mm (h)	520 mm
Range N·m	2-100 N·m
