Label. Beton hook L.150mm

Properties.

- suitable for fixing plasterboards to wall pillars, etc.
- with moveable strap
- forged, hardened tip
- galvanised
- storage in a bucket

Benefits.

Robust plaster hooks to protect walls when fixing plaster and masonry battens, strips and other elements.

The hardened tip ensures maximum durability - even on very hard surfaces - and allows effortless hammering into concrete.

The practical bucket keeps the beton hooks neatly and safely stowed away - so they remain sharp, undamaged and do not lie loose in the tool box.

The rotating tab allows flexible adjustment of the position even after hammering in.

Made of forged, zinc-plated steel and additionally zinc-plated for high corrosion resistance and a long service life.
