Hand lamp

13138 HL

Product no.	**77490019**
GTIN	**4018754360635**
Model	**13138 HL 1000**

Label. Hand lamp 1000, 380 lm

Properties.

- adjustable brightness with 2 brightness levels: 100 % (1,000 lm) / 50 % (380 lm)
- additional top LED with 180 lm
- lighting duration/brightness: 2.5 h (1,000 lm) / 4.5 h (380 lm) / 7 h (180 lm)
- lighting range: max. 60 m
- lighting duration: up to 7 h
- rechargeable via USB-C connection
- charging time: approx. 4 h
- integrated Li-ion battery 3.7 V/2,600 mAh/9.62 Wh
- with charge control and battery status indicator
- for attachment to metal surfaces with integrated magnets
- 2 hooks rotatable through 360° for hanging
- protection class: IK07/IP54
- accessories: USB-C charging cable (100 cm)

Benefits.

Rechargeable LED hand lamp with high light output of up to 1,000 lm.

Up to 7 hours of light output (depending on the operating mode) thanks to permanently installed Li-ion battery packs with safety electronics (3.7 V/2,600 mAh/9.62 Wh).

The housing made of durable ABS plastic offers reliable protection against dust and splash water thanks to protection class IP54.

An additional LED in the lamp head extends the light output of the main light.

The holding magnets on the bottom and back as well as rotatable hooks make mounting particularly flexible and practical.

Product highlights.

Double the power.
Thanks to powerful COB LED technology with a wide beam angle, the bright light is evenly distributed over large areas in workshops, warehouses or halls. An additional SMD LED on the lamp head provides powerful, focused spot lighting for precise inspection or assembly work on components and machines.

Flexible attachment.
The handle and base are adjustable by 180°, allowing the light to be positioned flexibly. Thanks to the practical magnetic holder, the lamp can be securely attached to metal surfaces. It can also be hung up using two fold-out, rotatable hooks.

Powerful and rechargeable.
The lighting has a built-in Li-ion battery with a capacity of 2,600 mAh. It can be conveniently charged via a USB Type-C connection. A waterproof silicone cover protects the charging socket from external influences. The current charging status and the remaining battery capacity can be viewed at any time via a side LED indicator.

Technical attributes.

Length mm (L)	266 mm
Width mm (b)	48 mm
Height mm (h)	32 mm
Battery type	Li-ion 3.7 V / 5000 mAH
Brightness	1000, 380 lm
Protection class	IK07/IP54

Logistics data.

Product no.	77490019
GTIN	4018754360635
Weight (g)	340 g
Volume (packaged, dm3)	13.0645 dm3
Packing standard	12
WEEE/ElektroG	Kleingeräte B2C
Customs tariff no.	85131000
Country of origin AWR	CHINA
Region of origin	Ausländischer Ursprung
Depth mm (IFS)	266
Width mm (IFS)	48
Height mm (IFS)	32
Weight (gross, kg)	4,938
Weight PAP (kg)	0,066
Weight PVC (kg)	0,000

Length (packaged, mm)	290
Width (packaged, mm)	265
Height (packaging, mm)	170
