Label.

Mini electronics side cutter L.110mm Header polished Handles 2-component handles

Properties.

- for demanding work in electronics/precision mechanics
- compact version with slim head design for use in confined working areas
- long service life, no play, push-through joint
- with double leaf spring for smooth movement
- extended handle cover for better slip protection
- ergonomic thumb rest for optimal handling
- cutting edges induction hardened to approx. 62 HRC
- with 2-component handles
- DIN ISO 9654

Benefits.

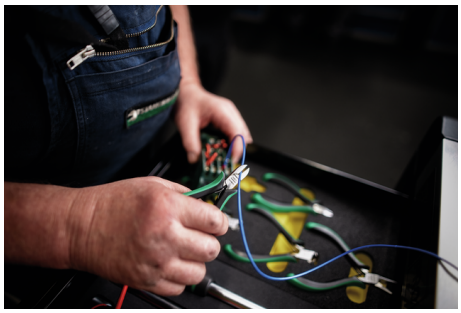
Precision side cutters for fine cutting work in electronics or precision mechanics.

The precise tip shape cuts even tight-fitting wires from 0.4 mm diameter smoothly and reliably.

The fully inserted, play-free joint offers the highest precision with a consistently long service life.

The particularly narrow cutting edges enable highest precision and a clean cut.

Optimised cutter geometry reduces the effort required for cutting.



Product highlights.

PRODUCT IMAGE IN PROGRESS

Efficient use in confined installation spaces.
The slim head of the electronics cutter enables efficient use in confined installation spaces. The smooth-running joint reduces the effort required. The handle covers with multi-component material improve slip resistance and the ergonomic thumb rest optimises the handling of the pliers.

PRODUCT IMAGE IN PROGRESS

Precision and durability.
The cutter is specially designed for the finest precision work. Its rigid box joint and sharp cutting edges guarantee precise cuts with different wire thicknesses. At the same time, the high-quality materials of the electronics pliers offer remarkable durability and service life.

PRODUCT IMAGE IN PROGRESS

Outstanding craftsmanship.
The tool is forged from high-quality steel which gives it outstanding stability and durability in continuous use.
