EAN:	4013288220608	**Size:**	330x150x70 mm
Part number:	05004175001	**Weight:**	1852 g
Article number:	Bicycle Set 7	**Country of origin:**	CZ
		Customs tariff number:	82079030

- 27-piece 3/8" ratchet set including fine-toothed Zyklop Speed ratchet with swivelling ratchet head, push-button release and right/left switching
- Low return angle of only 5° for working in a small space
- Long bit sockets with extra slim, cylindrical profile zone for low-located couplings (e.g. for bottom bracket ball bearing or stem-fork-clamping)
- 8790 HMB Deep socket wrench insert size 15 for use in cap socket couplings
- Sockets and bits for the most popular screw profiles for road bikes, mountain bikes and e-bikes
- Assortment in robust textile box with low weight for easy transport
- With adapter from 3/8" square head socket to ½" external square head for mounting special bicycle tools

27-piece 3/8" ratchet set for typical bicycle operations with extensive accessories:
1 Zyklop Speed ratchet with 3/8" drive, 10 Zyklop sockets, 2 Zyklop bit sockets with 30 mm and extra slim profile area for better accessibility in tight workspaces. With Take it easy tool finder: Colour coding by size. 1 Zyklop extension (short) with fast-rotating sleeve, 1 "Wobble" extension, 1 bit adapter, 1 connection part 3/8" external square head to 1/2" external square head, 10 bits, tough, for universal use. Incredibly compact set arrangement for many tools in a tight space thanks to the highly robust and durable textile box. Can be placed in an upright position for clearly arranged storage in the workshop shelf. Additional surface protection due to textile outer material. Low weight and small size for better mobility.

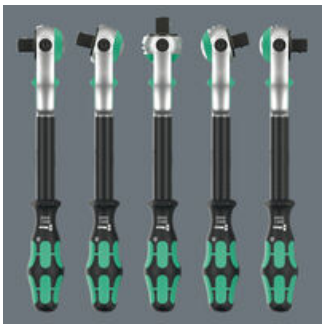
Zyklop “6 in 1”

1. Fine-tooth ratchet 2. Flex-head ratchet 3. Angle ratchet 4. Quick-release ratchet 5. Power ratchet 6. Screwdriver

Pivots freely



The ratchet head pivots freely and can be locked into any defined position by using the slide switch that is positioned on either side. It is even possible to work in very confined and difficult-to-access areas with enhanced hand clearance. The predefined locking at 0°, 15° and 90°, both to the right and left, ensure safe working without any slipping of the ratchet head.

Fast movers

The Zyklop Speed ratchets are really fast movers. The gyrating mass design means that screwdriving is accelerated. The rotation-symmetric structure of the Kraftform handle and the free-turning sleeve reinforce this rapid twisting process, particularly when the ratchet does not engage due to too little resistance in the thread.

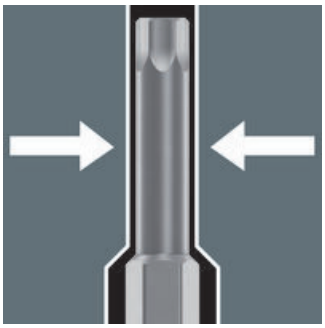
Simple direction change

All Zyklop Speed ratchets feature a thumbwheel that can be used to quickly and easily switch between clockwise and anticlockwise rotation, at any position. No complicated handling, no loss of time!

Low return angle

The reversible ratchet with 72 fine-pitched teeth has a low return angle of only 5°. This short stroke allows fast and precise work in all types of installation.

30 mm long and extra slim profile area



The bit sockets have a 30 mm long and extra slim profile area. This makes even couplings in tight work spaces easily accessible.

The Zyklop sockets

The Zyklop sockets are suitable for manual and machine-operated tools (non impact). They feature a ball stop groove and knurling at the rear end for manageability during manual use. They are made of chrome-vanadium, matte-chromed. Take it easy tool finder: colour coding by size as well as size stamping - to help you find the required socket quickly and easily.

Take it easy tool finder system

Take it easy tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).
