Article number:	Kraftform Kompakt SH 2	**Country of origin:**	CZ
		Customs tariff number:	82054000

- 15 screwdriving tools for sanitary or heating applications in compact and robust Wera textile box
- JOKER combination ratcheting wrench with special holding plate against slipping/loss of the screw
- VDE-insulated Kraftform 817 VDE bladeholding screwdriver with anti-roll protection
- VDE blades (157 mm length) with practical spinning function, anti-roll protection and Take it easy tool finder: colour coding by profile and laser-engraved size indication
- Kraftform Chiseldriver with hex blade extending through handle and integrated impact cap
- Hollow shaft nutspinner for nuts on protruding threaded rods

Compact tool set with 15 important screwdriving tools for the sanitary and heating sectors. With 2 Joker Switch ratcheting combination wrenches, VDE handle with 4 extra-slim blades, voltage tester, 4 L-keys with thermoplastic sleeve, chiseldriver and 2 Kraftform Plus nutspinners with hollow shaft. The details: 2 Joker Switch ratcheting combination wrenches with special retaining plate to prevent slipping/loss of the screw and more torque transfer; one Kraftform 817 VDE bladeholding screwdriver solely for Wera VDE blades; 4 VDE blades (each 157 mm length) with Take it easy tool finder with colour coding by profile and laser-engraved size indication; for safe working at up to 1000 volts (iS with reduced blade diameter and integrated protective insulation for reaching and operating low-lying screw and spring elements); 1 single-pole phase tester 247; 4 L-keys with Hex-Plus profile to prevent rounding out screws; 1 Kraftform chiseldriver 932 A (slotted) with pound-thru hexagonal blade and integrated impact cap for screwdriving and light chiselling; 2 socket wrench nutspinners 395 HO with hollow shaft for tightening or loosening nuts on protruding threaded rods as well as fixed screws. Including tools with Take it easy tool finder with colour coding in accordance to profiles and size stamping - for fast and easy tool selection.

Compact tool set with 15 important screwdriving tools for the sanitary and heating sectors.

Kraftform Kompakt SH 2 PlumbKit

Compact tool set with the 15 most important screwdriving tools for plumbing and heating applications.

Holding function

The Joker's holding function means that nuts and bolts can be held in the jaw and easily positioned where they are needed. Fastening on to the thread can then be done quickly and safely, thanks to the innovative special stop-plate which holds the fastener. No more time-wasting searches for dropped nuts and bolts! After applying and positioning the nut or bolt, fastening can begin immediately - no additional tools required.

Series 900 – the Chiseldriver

The chiseldriver is the solution for jobs that require more than just screwdriving. For fastening, chiselling and loosening seized screws or hose clamps. With an integrated impact cap that extends service live and reduces the risk of splintering. With a pound-thru hexagon blade made from high-grade material for - zero-loss transfer of high forces when struck with a hammer. The tough viscous tempered material prevents the blade from splintering or breaking. More TORQUE can be transferred by attaching an open-jawed or ring spanner to the integrated hexagon bolster.

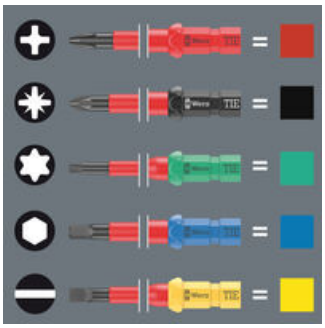
Hollow shaft nutsetter

A screwdriver with a hollow shaft is needed whenever there are screwdriving jobs involving threaded rods i.e. the threaded rod can slip into the hollow shaft of the nutsetter.

Take it easy Tool Finder

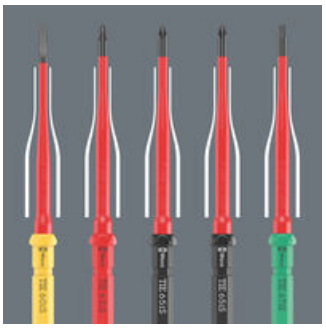


The Kraftform Kompakt VDE blades are equipped with the Take it easy Tool finder. The colour coding by profile and the laser-engraved size indication make it easy to identify the required tool quickly.

The handle/blade system – Kraftform Kompakt VDE

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.

VDE interchangeable blade with reduced shaft diameter (iS)



Reduced blade diameter with integrated protective insulation, allows sunken screws and spring elements to be accessed and actuated, individually tested as per IEC 60900.
