# Product data sheet
# 4802-1 EAN-No. 4000896**200030**

**Application:**
Vacuum leakage test before refilling the cooling system

- Suitable in conjunction with single or universal adapters, e.g. 4801-2/3
- **Filling of the coolant and heating circuit without bubbles in trucks · buses · agricultural machinery and construction vehicles**
- Faster attainment of the desired vacuum and thus faster filling of the cooling system
- Fast coolant flow rate: **80 litres in approx. 20 minutes**
- Application with universal plug or fixed cover
- No loss of coolant due to overflow of the cooling system
- Separate control through the diagnostic testing device is no longer necessary
- Hose: 10 x 16 mm
- Outside ∅: 16 mm
- Inside ∅: 10 mm
- Made in Germany
