Product data sheet
630 KV-17 EAN-No. 4000896**231508**

Size 17 mm · ✺

- Deep offset
- Heads thin-walled
- Surface: with protective insulation
- IEC 60900:2018
- Made in Germany
- Output: ✺
- Wrench size: 17 mm
- Dimensions: 223 mm
- Protective insulation up to 1000 V

HAZET wrench – high precision tightening and loosening of screw connections

- Long service life due to:
  – High-quality chrome vanadium steel
  – Compacted material structure from drop forging
  – Careful heat treatment
- Correct hardness and dimensional stability as guarantors of wear resistance and high load capacity
- Shape, dimensions and surface design are perfectly coordinated to one another which guarantees functional handling and meets ergonomic requirements
- **Slim construction** through optimum material composition guarantees sufficient freedom of movement even with hard-to-reach screw connections
- HAZET torque values are considerably higher than the DIN ISO requirements for all wrench sizes – here DIN is the minimum requirement
- Slim open-end and box-end head shape does not reduce the wrench's loading capacity, although this is well below the maximum permissible limit value according to DIN ISO

Order Number	630 KV-17
Protective insulation	Protective insulation up to 1000 V
