Product data sheet
4903/3 EAN-No. 4000896**180554**

3-pieces

- Increased safety – thanks to load-free installation
- **Prerequisite:** if the 4900-2A safety spring vice basic unit is already available, this set is **the perfect choice** (for the complete set, see 4903/4)
- 3-piece set · Contents:
- 4903-1 Basic support
- 4903-2 universal clamping disc · adjustable
- 4903-3 universal tensioning jaw · adjustable, safety adapter included
- Can be used for almost any spring strut / shock absorber strut
- **Load-free disassembly/assembly** with completely relieved shock absorber

Innovative mounting and installation concept

- Swivelling in horizontal or vertical working position
  – HAZET recommendation for ergonomic working height: adjust vertically, operate horizontally
- **No damage to shock absorbers and head plates**
  – No overload possibility
- Simple, lockable strut mount

High safety

- Consistently reliable mounting of head plates
- **No thread damage to piston rod**
- Permanent fixation of spring throughout operation

Secured investment – by using existing components of SYSTEM 4900

- Basic units 4900-2A and all tensioning jaws of system 4900 may be used
- Use of future applications is assured

Allows record keeping by scaling

- If recurring, significant time savings by scaling
- Firm fixation eliminates readjustment at the same spring strut (left/right)

4 steps to success

Mount strut on clamping disc above gripper and brakes**Grip spring** with universal tensioning jaw**Operate the tensioner** with reversible ratchet, cordless screwdriver or compressed air ratchet**Removing / installing the shock absorber** – then continue in the reverse sequence

- Made in Germany
