# Product data sheet
## 4904-1 EAN-No. 4000896**236251**

- Compact HAZET design enables spring replacement with remarkable time savings
- Universal application on almost all passenger cars
- Inner spring vice: spindle · drive nut · pressure sleeve with anti-rotation device
- **Anti-rotation device** for lower tensioning jaws integrated in the base component **reduces the outer diameter to 32 mm**
- Pendulum 6-point head for **uniform distribution of power**
- Integrated **anti-rotation device** for upper clamping plates
- One-sided counterholder for the spindle by hexagon on top, e.g. with combination wrench HAZET 600N-13
- Removal and installation of **springs with small coil spacing**, e.g. for the **MINI** Cooper S (third generation) · **VW** Passat (B8)
- **Span 120 mm**
- **Loading up to 31.000 N** – work safely on electric and hybrid vehicles
- **GS mark for tested safety** – tested with at least **four-fold safety against breakage**
- 17° swivel angle of the clamping plates ensures removal of **C-shaped (bent) springs**, e.g. on **AUDI** A4 (B9) · **VW** Golf 7
- **Internal and external guidance** the clamping plates prevents the spring from sliding out
- All clamping plates included, reusable, replaceable **plastic protective pads**
- Tested on vehicles of the following manufacturers:
  **AUDI** · **BMW** · **CITROËN** · **FIAT** · **FORD** · **HYUNDAI** · **KIA** · **MAZDA** · **MERCEDES-BENZ** · **MINI** · **OPEL** · **PEUGEOT** · **RENAULT** · **SEAT** · **ŠKODA** · **TOYOTA** · **VW**

**Highlights:**

- Easy handling for just one user
- Eliminates time-consuming work associated with most spring removal:
  – Removal of axle parts unnecessary
  – Axle alignment no longer necessary
  – Removal and installation possible in just a few minutes on each side
- Made in Germany
