Secure grip for any movement.

The external square drive features a ball locking function that securely fixes inserts in place and prevents them from being loosened unintentionally. This reliably maintains the tool in position even during demanding bolting work.

Well thought out down to the smallest detail.

The flush recessed button enables the user to work smoothly, without getting caught on workpieces or parts - a real benefit when working in tight spaces. The recessed position also protects the button from being pressed by accident, keeping the tool securely locked.

Outstanding craftsmanship.

The tool is forged from high-quality Chrome Alloy Steel, which gives it outstanding stability and durability in continuous use. It also has a corrosion-resistant chrome-plated finish.

Technologies and features.

QuickRelease

The QuickRelease safety lock prevents unintentional loss of sockets and insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.
