Control cabinet key 7 in 1

Properties.

- universal key for all locking systems in electrical engineering, gas and water supplies, air conditioning and ventilation technology, industry and much more
- functions: internal square drive 5, 6, 7-8 mm; internal triangle drive 7, 9 mm; double cam 3-5 mm
- also for PH size 2 and slotted 1.0 x 7 mm
- with chain and plastic bit adaptor 6.3 mm (1/4")
- made from diecast zinc
- supplied in clear packaging with enclosed description

Benefits.

A universal key for effortless opening of switch cabinets, valves and technical equipment in gas, water and electricity supply systems.

Thanks to the additional double bit, it can also be used as a PHILLIPS® and slotted screwdriver.

Made from robust die-cast zinc for greater durability and reliable performance even under continuous use.

The key has different sizes of internal square, internal triangle and double bit for different systems.

Thanks to its compact design, the control cabinet key saves space in the tool inventory and at the same time lies securely and ergonomically in the hand.
