Benefits.

Whether for electronics technicians, IT technicians or watchmakers - our screwdriver set is specially tailored to the needs of professionals for precise work.

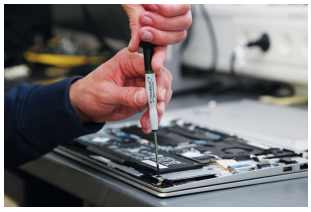

The handy fast rotating handle in combination with a rotary cap enables faster and more efficient swirling without having to put down the screwdriver.

In a TCS inlay with laser size marking of the individual screwdrivers - for clear and safe storage.

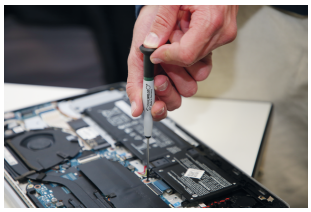

With finely tuned sizes, such as slotted (0.16-0.5 mm), cross-slotted (PH00-PH1), hex (0.7-1.5 mm) and TORX® (T4-T15), the set is ideal for delicate work on sensitive components.

The non-slip multi-component handle ensures maximum control and supports ergonomic working.

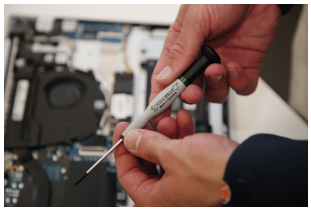

Product highlights.

For the smallest safety screws.
Our high-quality set of electronics screwdrivers is an indispensable tool for various electronics and precision engineering projects. Whether for repairing hardware, installing and maintaining automotive electronics or in precision engineering for clockworks and microelectronics, these screwdrivers combine precision, comfort, and versatility.

Fast spinning.
By placing your hand on the rotary cap and the fast-rotating handle, you can twirl the screwdriver particularly quickly without having to put it down repeatedly.

Convenient handling.
The multi-component handle promotes ergonomic and comfortable working thanks to a well thought-out combination of hard and soft zones.

Excellent quality.
The Chrome Alloy Steel blade with specially hardened black tip ensures the highest quality and a long service life.

Organised storage.
The set is organised in a STAHLWILLE TCS safety insert. These durable inserts are chemical-resistant and have precise recesses for each tool. The striking colour of the underside of the TCS inserts serves as a signal area so that the completeness of the set can be quickly checked.

Technologies and features.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.
