GTIN	**4022668110026**
Model	**11002 90° 1.1/2**

Label. Swedish pipe wrench 90° 1.1/2" L.425mm

Properties.

- Form A, angled at 90°
- with optimum corner dimension for hidden and difficult-to-access screw connections
- self-clamping on the workpiece
- safety clamp protection against crushing injuries
- adjusting nut secured against loss
- DIN 5234 A

Benefits.

Thanks to the 90° angled jaw shape, the pliers remain stable and parallel to the workpiece, even with large diameters.

Made of durable Chrome Alloy Steel and additionally tempered for maximum durability and wear protection.

The adjustment screw allows for continuous and flexible adaptation to different workpiece sizes.

For greater ergonomics and safety, the pliers are equipped with integrated pinch protection that effectively prevents crushing.

Particularly stable support.
The 90° angled jaw shape ensures a particularly stable, parallel support on the workpiece. This is a great advantage, especially when working on pipes, fittings or larger diameters where conventional pliers quickly slip off. The induction-hardened teeth also ensure a permanently strong grip.

Safe, controlled power transmission.

Self-clamping for one-handed operation.
The finely crafted, precise teeth ensure a firm bite into the material and enable controlled turning. Once applied, the Swedish pipe wrench clamps itself onto the pipe. This allows for effortless one-handed operation, which is particularly advantageous in confined or hard-to-reach areas, such as under the sink or in installation shafts.
