Product highlights.

Outstanding craftsmanship.
The blades are made of exceptionally fine industrial-grade chrome alloy steel, through-hardened and anchored in the grip in such a way that they stay there.

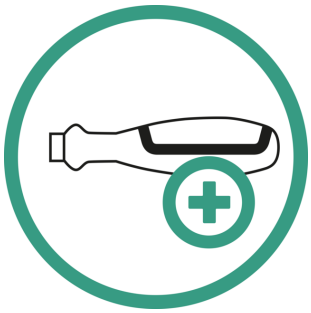

Robust.
Whether slotted or cross-head - the rough blade tips transfer even the greatest torques to the screws - precisely and safely.

Technologies and features.

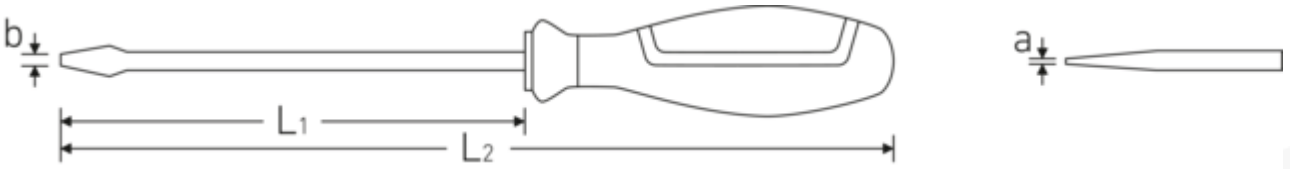

3-component handle
Our 3-component handle combines hard and soft components, which give it its optimised ergonomics, maximum power transmission, and increased safety during daily use.

DRALL+
Our DRALL+ handle is non-slip and ergonomic. An extended grip zone protects the fingers and a hand stop prevents the tool from accidentally slipping or rolling away.
