

Double-ended ring spanner set StahlwilleSTABIL®, metric

TCS StahlwilleSTABIL 20/8 6x7-19x22

Product no.	96838192
GTIN	4018754138647
Model	TCS StahlwilleSTABIL 20/8 6x7-19x22

Label. Double-ended ring spanner set TCS StahlwilleSTABIL 20/8 6x7-19x22 8 pcs.

Properties.

- 175 x 350 x 45 mm
- 8-piece set

Benefits.

High-quality double-ended ring spanner set, deep cranked (75°) for tight and awkward areas, with metric sizes.

A special manufacturing process enables thin-walled rings - primarily for slightly deeper bolted connections.

In the Tool Control System (TCS) modular tool insert system - an intelligent storage solution for tool trolleys and workshop trolleys.

High bending stiffness ensures added safety even under overload conditions.

The distinctive STAHLWILLE rounded finish gives the spanner a non-slip and comfortable feel for safe working, even with oily hands.

Product highlights.

PRODUCT IMAGE

Powerful set for confined spaces.

The deeply cranked, compact StahlwilleSTABIL® double-ended ring spanner set in a sturdy cardboard box with unequal spanner sizes is a reliable companion for work in automotive workshops, mechanical and plant engineering, sanitary installations and general maintenance, especially when bolted connections are difficult to access. The different spanner sizes cover common screw connections on engine components, hydraulic and pneumatic systems and precision mechanics, while the cranked shape enables safe power transmission even in deep or concealed areas.

For angled areas.

Our double-ended ring spanners fit comfortably in the hand and provide a secure, stable feel even with tight screws. Thanks to their 75° cranked shape, they reliably reach awkward or hard-to-reach areas - exactly where conventional spanners quickly reach their limits.

PRODUCT IMAGE

Optimum power transmission.

Each spanner guarantees consistently excellent quality thanks to minimal manufacturing tolerances and high reproducible precision. The jaw and ring always fit securely on the screw, ensuring optimum power transmission.

PRODUCT IMAGE

Non-slip surface.

STAHLWILLE spanners feature a high-quality, non-slip surface texture that enables safe working even with oily hands. The non-slip texture increases control during handling.

PRODUCT IMAGE

High-quality workmanship.

The key is forged from high-quality Chrome Alloy Steel, which gives it high stability and resistance even in continuous use. It is also chrome-plated for corrosion resistance.

Order and control.

The set is organised in a STAHLWILLE TCS inlay. These durable inlays are chemical-resistant and feature precise recesses for each tool. The striking yellow underside of the TCS inlays serves as a signal surface, allowing you to quickly check that the set is complete.

Technologies and features.

Tool Control System

The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

Double-T profile

Our ring, open-ended and combination spanners have an additional recess in the middle of the tool. Similar to the principle of a double-T beam, this provides a tremendous load capacity and maximum strength whilst reducing weight.

Thin-walled rings

The thin-walled diameter of our rings makes it easier to work in confined spaces. The ring wall is deeper than standard nuts, which prevents jamming.
