Benefits.

Heavy-duty tool trolley from the special edition 'Best tools never die' with 7 drawers and a 131-piece tool set.

Solid basic equipment for every workshop: open-end wrenches up to 24 mm, 1/2" ratchet with extension, sockets up to 32 mm, various screwdrivers and much more.

The tools are securely integrated in durable, chemical-resistant TCS inlays with precise recesses and colour-coded areas.

Exclusive UV coating in a special design - manufactured using a modern UV printing process (without foil).

The sturdy 95/7 tool trolley has a static load capacity of up to 750 kg - the bottom drawer has a load capacity of up to 45 kg.

Product highlights.

Maximum power.
Whether in the workshop, for vehicle repairs or in industrial assembly, the 1/2" tools in this range offer maximum power and reliability when it matters. The ratchet enables fast and safe working, while the 130 mm extension makes even hard-to-reach screws accessible. With 17 precision-manufactured socket bits (10-32 mm), you always have the right size to hand for every application.

The all-round combination spanner set.
The high-quality combination spanner set covers almost all common screwdriving applications in trade, workshop and industry with sizes from 6-24 mm. The cranked ringside with AS-Drive profile protects screws and nuts and ensures optimal power transmission. Thanks to the reinforced jaw-shank connection and the non-slip rounded finish, each spanner lies securely and comfortably in the hand.

Screwdrivers for every requirement.
This set offers everything you need for versatile work: an offset screwdriver set with hex socket and high-quality screwdrivers for slotted, PHILLIPS® and TORX® screws. Whether for fine adjustments, machine repairs or precise assembly work, our tools are precision-manufactured, robust and designed for durability.

Takes on anything.
High-quality materials such as the tightly welded stainless steel tray with a scratch-resistant honeycomb structure ensure the durability typical of STAHLWILLE and prevent liquids from penetrating into the interior of the trolley. The work surface of 827 x 496 mm is particularly suitable for working on large components. Thanks to its robust construction, the 95 PRO has a static load capacity of 750 kg. Thanks to reinforcements, the drawers can be loaded with 30 kg and the bottom drawer with up to 45 kg.

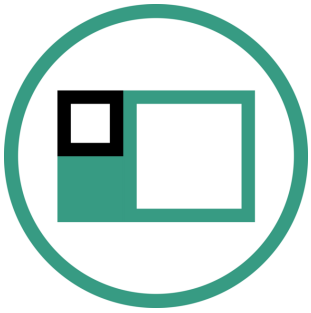

A statement on wheels.
Our tool trolley has a new, eye-catching look: with high-quality UV paint in the Best tools never die edition and exclusive STAHLWILLE artwork. The modern paint finish ensures a razor-sharp finish - without any foiling.

Special edition for real tool fans.
This special edition is for everyone who not only uses tools, but truly loves them. The striking skeleton motif makes our trolley an absolute eye-catcher in any workshop - and best of all, there's also a matching beanie, a sticker sheet and a bottle opener made from real torque wrench tubing. Tool style with real character.

Technologies and features.

Modular Inlay System
This flexible solution for tool storage makes it possible to customise your tool trolleys and workbenches with 1/6, 1/3, 2/3 or 3/3 foam inlays.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

High Performance Quality (HPQ®)
Our HPQ® tool is made of wear-resistant high-performance steel, yet is thin-walled and lightweight. It withstands high torques and is ideal for work in confined spaces such as turbines.
