Product highlights.

Robust tool box.

The robust tool box is particularly resilient thanks to its durable ABS plastic. It has a high-quality, chemical-resistant hard foam insert to hold the tools securely in place. The fasteners are particularly easy to use and can be ordered individually as spare parts.

Everything at a glance.

The laser-engraved contents in the lid insert provide an optimal overview of the tools within.

Technologies and features.

Tool Control System

The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

HI-LOK™

HI-LOK™ fasteners are widely used in the aerospace industry. Our HI-LOK™ ratchet with centered channel guide for hex L-Keys is designed for safety-critical applications. The boltless design minimises the risk of FOD and ensures robust, vibration-resistant connections with high tensile strength.
