Benefits.

High-quality 157-piece tool set for equipping workbenches, tool trolleys and tool carts in industrial use.

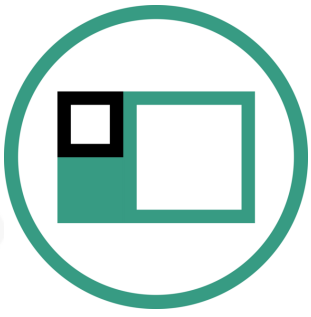

Made from high-quality Chrole Alloy Steel with a chrome-plated, corrosion-resistant surface for a long service life.

The tools are securely integrated into TCS inlays - durable, chemical-resistant foam inserts with precise tool recesses and a high-visibility surface for quick completeness checks.

Comprehensive set for the highest demands: QR fine-tooth ratchets with extensions, sockets up to 32 mm, bit ratchet screwdriver and bit box, screwdriver, various pliers and much more.

Patented QuickRelease locking system secures all components from the ratchet to the extension to the socket.

Technologies and features.

Modular Inlay System
This flexible solution for tool storage makes it possible to customise your tool trolleys and workbenches with 1/6, 1/3, 2/3 or 3/3 foam inlays.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

QuickRelease
The QuickRelease safety lock prevents unintentional loss of sockets and insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.
