Magnet lifter

12600

Product no.	**77260020**
GTIN	**4018754366903**
Model	**12600 270**

Label. Magnet lifter Tension force 270g Dia.5mm L.500mm

Properties.

- flexible magnetic lifter with application-optimised tweezers handle
- for use in workshops, industry, and the home
- enables screws, nuts, and other small metal parts to be retrieved from tight spaces

Benefits.

Flexible magnet lifter for picking up screws, nuts and small parts from hard-to-reach areas and gaps.

The extra-narrow magnetic head and flexible shank easily reach tight, awkward places, e.g. in the engine compartment.

The tweezers handle fits comfortably and securely in the hand thanks to its slightly bulbous form and prevents slipping when pulling parts towards you.

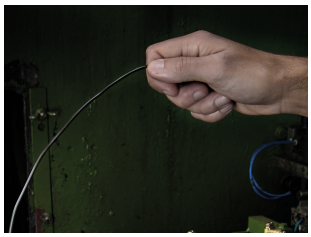

An indispensable aid for use in workshops, industry and the home.

Strong magnet lifts metallic objects up to 270 g.

Product highlights.

Compact, strong magnetic head.
The slim magnetic head with a small diameter impresses with its strong lifting power. This makes it easy to pick up bolts, nuts, nails and small tools made of ferrous metals such as iron, cobalt, nickel and steel from tight corners, gaps and crevices.

Flexible shank for hard-to-reach corners.
The flexible gooseneck adapts flexibly to any form and can reach even tight, awkward or hard-to-see corners and gaps. This makes it easy to retrieve lost metal parts, for example in the engine compartment, behind furniture or in machinery.

PRODUCT IMAGE IN PROGRESS

Reliable support in every situation.
The handy, non-slip tweezers handle offers maximum control and precision even under tough conditions. The slightly bulbous form prevents the magnet lifter from slipping when pulling parts, while the slim, smooth surface provides a comfortable and secure grip.
