- chrome-plated
- with 2-component handles

Benefits.

Additional inductively hardened (approx. 64 HRC) cutting edges for optimum performance under continuous stress.

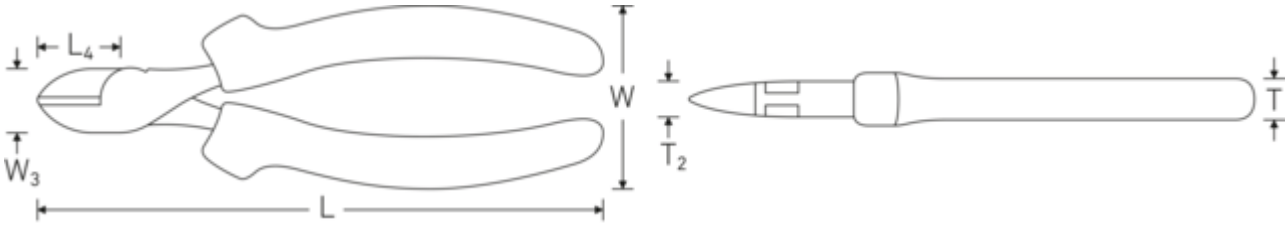

Thanks to the cutting bevel, the material is cut gently and cleanly, which prevents deformation and damage.

The inside of the handle is labelled with the EAN code, distributor and article number.

The sharp cutting edges deliver equally accurate results with both hard and soft wire.

The non-slip 2-component handle provides an optimal grip during use.
