Product highlights.

Robust tool box.
The robust tool box is particularly resilient thanks to its durable ABS plastic. It has a high-quality, chemical-resistant hard foam insert to hold the tools securely in place. The fasteners are particularly easy to use and can be ordered individually as spare parts.

Everything at a glance.
The laser-engraved contents in the lid insert provide an optimal overview of the tools within.

Technologies and features.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.

QuickRelease
The QuickRelease safety lock prevents unintentional loss of sockets and insert tools. These click securely into place, and are only released again at the push of a button for a quick tool change. In transducers: The QuickRelease safety lock helps you to quickly mount and change transducers. The transducers lock into the calibration system and only unlock again at the push of the buttons.
