

EAN:	4013288221698	Size:	205x70x40 mm
Part number:	05018100001	Weight:	378 g
Article number:	921	Country of origin:	CZ
		Customs tariff number:	82054000

- For loosening stubborn screw connections
- Manual impact wrench function can be switched on and off
- Hammer blow impulse is converted into a rotary movement with a loosening torque of approx. 25 Nm - without loss via a pound-thru blade
- Reversible functions: impact wrench and screwdriver
- Combines the advantages of manual impact wrenches, compact tools and screwdrivers with pound-thru blade

The impact screwdriver 921 combines the advantages of manual impact wrenches, compact tools and screwdrivers with pound-thru blade. The impact wrench function offers a loosening moment of up to 25 Nm. The robust bit holder allows the mounting of different specialised bits for various screw profiles. The pound-thru blade ensures complete power transmission (zero loss). The impact wrench function and screwdriver function can be switched as required.

Combination tool

The 921 impact screwdriver combines the advantages of manual impact wrenches, compact tools and screwdrivers with pound-thru blade.

The 921 impact screwdriver combines the advantages of interchangeable blade sets, chiseldrivers and manual impact wrenches.

Impact wrench function can be switched on and off

The manual impact wrench function can be switched on if required to loosen even stubborn screw connections.

Loosening moment

With the impact wrench function switched on, the hammer blow impulse is converted into a rotary movement with a loosening moment of up to 25 Nm. Power transmission without loss via a pound-thru blade.

Higher power transmission when the impact wrench function is deactivated

When the impact wrench function is deactivated, the hexagon bolster can be operated with a size 13 spanner for greater power transmission.

Handle/interchangeable blade system

The robust bit mounting is suitable for bits with 1/4" external hexagon drive as per DIN ISO 1173-C 6.3 and E 6.3. The interchangeable blade system means low weight, reduced space requirement and high flexibility for the user.
