TAKE IT EASY TOOL FINDER

HEX-PLUS

RAPIDAPTOR TECHNOLOGY

WERA 2GO COMPATIBLE

MAGNETIC

EAN:	4013288179937	**Size:**	160x100x56 mm
Part number:	05057441001	**Weight:**	498 g
Article number:	Bit-Safe 61 BiTorsion 1	**Country of origin:**	CZ
		Customs tariff number:	82079030

- The Bit-Safes in textile box convince due to their functionality in a minimum of space
- Rapidaptor holder for rapid bit change
- For use with power tools
- Take it easy tool finder: colour coding according to profile and size
- Suitable for docking with the Wera 2go system

Robust textile box with bits and holder, 61-piece. 49 BiTorsion bits for long service life, in diamond-coated design (BDC) for a secure fit in the screw head, tough-absorbing (BTZ), for universal use, extra hard (BTH); 11 bits, tough-absorbing (Z), for universal use. 1 universal holder 889/4/1 K with quick-release chuck for take-up in the power screwdriver or use in the chuck of the power drill. The profile and size of the bits are easy to recognise thanks to the Wera Take it easy Tool Finder with its colour coding and clearly visible imprint. The textile box allows users a high degree of mobility with a minimum space requirement. The greatly reduced weight of a set makes carrying far more pleasant. Sensitive surfaces are protected when the box is set down - yet the textile box is still very robust. The box and the tools will even survive a fall unscathed.

Bit-Safe

The new Bit-Safes provide users with comprehensive bit and holder ranges in a surface-protecting, compact textile box.

BiTorsion Bits

Premium bits with torsion zone into which kinetic energy is dissipated during peak loads. With softer BiTorsion zone to prevent the bit tip from twisting at high loads. This significantly increases product life. Tough design for universal use.

Rapidaptor holder

Lightning-fast bit change without any extra tools. One-handed operation. With fast-rotating sleeve for easy wielding of the screwdriver.

Chuck-all

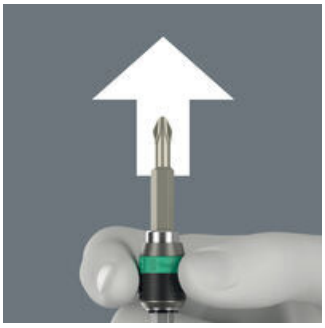

The Rapidaptor quick-release chucks hold ¼" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.

Magnetic

Bitholders, magnetic, for easier application of the screw
