

BITORSION

DIAMOND

TAKE IT EASY TOOL FINDER

RAPIDAPTOR TECHNOLOGY

MAGNETIC

EAN:	4013288213976	**Size:**	175x95x21 mm
Part number:	05136392001	**Weight:**	120 g
Article number:	Bit-Check 12 Diamond 1 SB	**Country of origin:**	CZ
		Customs tariff number:	82079030

- Upright positionable Bit-Checks convince due to their functionality in a minimum of space
- BiTorsion bits for long service life
- Diamond coating for a secure fit in the screw, literally bites into the screwhead to prevent cam-out
- Rapidaptor holder for rapid bit change
- Take it easy tool finder: colour coding according to profile and size

Bits with tiny diamond particles on the bit tip. This ensures a secure fit in the screw head, reduces the contact pressure required and lowers the risk of slipping. BiTorsion bits with a torsion zone - where kinetic energy is diverted from peak loads. This greatly extends the product service life. Comes with Rapidaptor technology, which allows bits to be attached without any need to actuate the sleeve. The removal of the bit is simple, just by pushing the sleeve forward - for rapid bit change with just one hand. For insertion in the power screwdriver or into the chuck of the power drill. The multi-component Bit-Check is convincing on account of its low weight and the maximum possible degree of compactness. In this respect, the soft material in the lower section of the Bit-Check ensures that the bits are securely held whilst being simple to remove at the same time. The profile and size of the bits are easy to recognise thanks to the Wera Take it easy Tool Finder with its colour coding and clearly visible imprint.

At the workplace

The Bit-Checks can be positioned upright at the workplace so the tool is always quickly to hand.

BiTorsion Bits

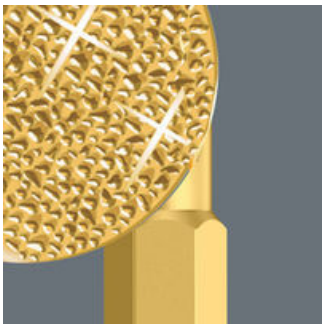

Peak forces that occur in power tool applications often result in premature wear of bits or damage to the screw head. This usually occurs during initial power-up and the when the screw comes to a standstill. Screwdriving could become more productive and safer if these peak loads could be minimised. The Wera BiTorsion system prevents premature wear. The service life of the tool is extended and the productivity of power tool applications significantly increased.

Bits with diamond coating

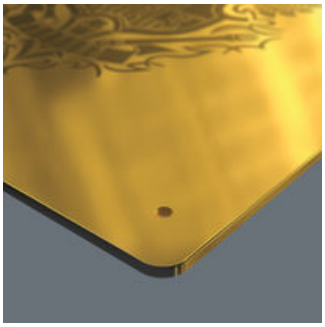

The diamond coating of the DC bits lowers the danger of slipping as the minute diamond particles literally "bite" themselves into the screw head.

Reduced cam-out forces

The minute diamond particles applied to the tip of the tool literally "bite" into the screw and ensure an exact, anti-slip fit in the head of the screw. This secure fit protects the screw. The cam-out forces which compel the user to apply greater pressure to the screw are considerably reduced.

Perfect fit

Ideal for sensitive materials

Rapidaptor holder

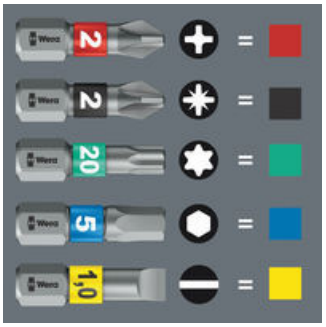

Lightning-fast bit change without any extra tools. One-handed operation. With fast-rotating sleeve for easy wielding of the screwdriver.

Magnetic

Bitholders, magnetic, for easier application of the screw

Take it easy tool finder system

The Take it easy Bit-Checks have bits with a sleeve which - from its colour (e.g. red = Phillips) and size designation - make it simple to access the right bit quickly.

Set contents:

889/4/1 K Rapidaptor Universal Bit Holder, 1/4" x 50 mm

05052502001	1x	1/4" x 50 mm

851/1 BDC bits, PH 1 x 25 mm

05056400001	1x	PH 1 x 25 mm
05056402001	2x	PH 2 x 25 mm

855/1 BDC bits, PZ 1 x 25 mm

05056700001	1x	PZ 1 x 25 mm
05056702001	2x	PZ 2 x 25 mm

867/1 BDC TORX® bits, TX 10 x 25 mm

05066100001	1x	TX 10 x 25 mm
05066102001	1x	TX 15 x 25 mm
05066104001	1x	TX 20 x 25 mm
05066106001	1x	TX 25 x 25 mm
05066108001	1x	TX 30 x 25 mm
